## Chairman's Message

15 June 2019

Keshav Srushti is a vibrant & path- defining tribute to the memory of one of the greatest Indian visionaries of the 20th century, Dr. Keshav Baliram Hedgewar - founder of the Rashtriya Swayamsevak Sangh (RSS), dedicated to the service of the nation. Inspired by the vision of Dr. Hedgewar in creating a self-reliant Bharat, Keshav Srushti today stands tall as a hub of innovative and versatile educational, irrigational and social projects aimed at creating socially conscious leaders and dedicated citizens of the country. The campus nestled in the lap of nature and spread across miles of greenery, flowing streams and hills, is a result of the generosity of Dr. Sharadchandra Ajinkya, Principal the Veterinary College of Mumbai, who donated the land as an act of contribution to projects that were aimed at nation-building. It is home to various species of flora & fauna and herbal plants, coupled with mango and coconut plantations. Over the last 25 years, Keshav Srushti has grown in leaps and bounds and now has seven independent institutions under its aegis, providing integrated development in versatile fields as mentioned below.

1. Uttan Krishi Sanshodhan Sanstha (UKSS)
2. Uttan Van Vanaushadhi Sanshodhan Sanstha (UVSS)
3. KeshavSrushti Goshala
4. Rambhau Mhalagi Prabhodhani (RMP)
5. Uttan Vividha Lakshi Shikshan Sansha (UVLSS)
6. Kishan Gopal Rajpuria Vanprasthashram

All the institutions adopt a creative & innovative approach, rely on latest teaching methods, advanced technology and environment - friendly practices to nurture and shape the young minds. Keshav Srushti looks forward to becoming the torchbearer in renewable energy projects and making the country 'Energy self-reliant.'

In the field of environment, development of a dense forest is one of the classic examples among numerous projects undertaken to improve the oxygen level of atmosphere to save environment. 'Green India' Project, undertaken in collaboration with IRCON for last 2 years, is an innovative approach in addressing community temples 'Solid Waste Management'.

Taking this legacy forward, KeshavSrushti commenced a KeshavSrushti Gram Vikas Yojna (KSGVY) - an Integrated Gram Vikas development program for 42 tribal villages of Palghar District from May 2017. This program empowers local youth for the comprehensive development of villages.

The idea of this report is to present the journey and achievements till date in the field of 'Environment and Gram Vikas'

I, on behalf of my team members, pleased to present this report to you all.

## KSGVY Annual Report 2018-19

शुद्ध सात्विक प्रेम अपने कार्य का आधार है

Rashtriya Swayamsevak Sangha Mananiya Sarkaryavah Shri Bhaiyyaji Joshi visited Wada on 11<sup>th</sup> December, 2018 to guide Keshav Srushti Gram Vikas Yojana (KSGVY) Team on various aspects of Gram Vikas.

### MESSAGE BY SHRI BHAIYYAJI JOSHI

Villages shall be considered as simplistic, diverse, and ideal family oriented social units while defining the concept of Gram Vikas.

There are three commonly observed types of Gram Vikas

- Government schemes
- individual Leadership
- Institutions

● **The fourth uncommon type, development started by villagers and assisted by outsiders, is most sustainable.**

As the commercial, industrial aspects are focused for development one shall also focus on fundamental needs of life simultaneously in carrying out Gram Vikas. Hence villages should also be considered as the centers of Development process.

● **Education** – Youth and women should not only be literate but also be imparted value based education involving social awareness, knowledge based training for current affairs, modern technology, cooperative movements, government schemes and health & hygiene.

● **Health Care & Hygiene** – Healthcare programme shall be comprehensive and preventive instead of provision of medication for diseases and disorders only.

● **Agriculture** – We have depreciated the value of land, water and farmers due to the last 60 years of policies. That needs major changes for **self-dependence** of villages with value added, nature based, and growth oriented programme with focus on the income of the farmers as well.

● **Safety** – The villagers should feel safe and secure environment and shall be free from anti-social elements. To achieve this goal we shall have institutions providing personality development. This includes libraries, playgrounds, gymnasiums, and platform for leadership development.

**At the end, he congratulated KSGVY for comprehensive Gram Vikas initiatives with USP of generating social awareness in Urban Yuva by connecting them with Rural Yuva.**

## KSGVY Annual Report 2018-19

### हमारी प्रेरणा भास्कर **AKSHAY OORJA CAMP**

Keshav shrushti conducts the *Aksahy Oorja Camp* (AOC) – a first of its kind residential camp, designed to Explore, Experience and Express exciting possibilities in the fields of personal Development and Environment Protection.

AOC is held in the environmentally friendly Eco-Green campus of **Keshav Srushti**, AOC exposes our children to multiple layers of experiences of team efforts, sports and play that help shape up their individual person.

The AOC programs weave together health inducing activities like early morning exercises, adventure treks and activities, brain storming sessions, hands-on experiments and device building efforts, interactions with Scientists and Environment activists, screening of education documentaries and also exclusive field visits, to take advantage of the opportunities and harness the potential of these rapidly growing fields.

We believe that Energy & Environment are two of the most important aspects that need to be carefully nurtured in our world today.

We need to take proactive steps to maintain harmony. We believe simple solutions exist even today. With simple applications of the mind, we can make energy conservation and energy generation from renewable sources amazing efforts of fun and celebration. We can thus lead a healthy, responsible and a thoroughly joyful life.

Hence, the idea of this Akshay Oorja Camp, inculcating in the young minds self-confidence, and instilling in them possibilities of a clean, green and a healthy environment around us, anywhere!

So far 150 students have participated in Akshay Oorja Camp.

## KSGVY Annual Report 2018-19

### सुजलाम सुफलाम **BE A FARMER FOR A DAY**

The BE A FARMER FOR A DAY is a specialised Keshav Srushti Program, that provides one an opportunity to come out of the busy city life, and spend their time close to nature, live and experience the excitements of life like that of a Farmer.

It offers hands-on experience of farming activities and workshops on various subjects like kitchen gardening, paper making, seed ball making, making effective use of the charcoal, learning how to make composts from daily vegetable waste at home, and some more. And then while visiting the Gaushala, they learn how to milk the cows, churn curd to make buttermilk, tend to the Cows or Gauseva, apart from other incredible animal husbandry activities.

The Program is organised on a regular basis for the Corporate Houses, schools, colleges, kids, families, including adult groups.

Last year the Keshav Srushti BE A FARMER FOR A DAY Program received an overwhelming response. More than 800 enthusiastic participants took part at different times during the year and benefited tremendously.

Corporate Houses like L&T, RBI, HDFC, Motilal Oswal, Bank of Baroda, Nomura Pvt Ltd and the Rotary Club of Andheri have been enthusiastic participants of the Keshav Srushti BE A FARMER FOR A DAY program.

### **DEVELOPMENT OF CITY FORESTS**

In Keshav Srushti's "My Green Society" Project we undertake multi-species high density plantation.

We first undertake ecology site surveys, where a variety of aspects are studied, based on which native flora of the region is selected. This selection of species helps us in undertaking calendar plantations to make sure food is available for the birds, bees, butterflies and small wildlife throughout the year.

The aim for undertaking multi-species high density plantations is to achieve success in developing the ecology within a short period. A process, which would have taken 20 years under normal circumstances, will require only 2-3 years by this specially designed Keshav Srushti method.

Such specialised and well-focused study of ecologically diverse, rich and dense forests in cities has an ecological spill-over effect in a radius of 3-4 kms, where plant species dispersal will ultimately happen with frugivorous birds, insects and mammals helping in seed dispersals.

The State Govt. of Maharashtra has asked the Keshav Srushti City Forest Team to be an integral part of the state Govt. team that plans to develop dense City Forests across Maharashtra. We hope we can develop the adequate specialised resources required to man such efforts.

Keshav Srushti has developed 3 City Forests in Mumbai so far. And the effort is gaining in content and encouragement.

*Keshav Srushti has developed 3 City Forests in Mumbai so far.*

*And the effort is gaining in content and encouragement.*

City Forest Location	Area in Sq. Feet	Number of Plants	Native species
Keshav Srushti, Uttan Bhayandar	3,000 sq.ft.	2,000+	50
Andheri (East), HDIL building	2,500 sq.ft.	1,535	50
Malad (West) BMC Garden	1,500 sq.ft.	600	40+

## **KESHAV SRUSHTI SEED BALL PLANTING PROGRAM**

We are losing forests at very high rates world over. Mumbai and areas surrounding are no exception. This is leading to increase in pollution levels, and is one of the key reasons for global warming & climate change. This is mostly due to pollution in air, chemicals in fertilizers and underground seepage of chemical effluents from heavy manufacturing and processing industries which do not treat their effluents and dump them into water sources like streams, rivers and wet lands.

While government is trying to check the chemical seepage, Reforestation is very important and need of the time. But to plant trees in abundance is a formidable challenge. To fix this problem, Keshav Srushti and allied organizations have come up with innovative solution of Seed Balls Planting Technique. Where from the good quality soil a ball is made putting a seed inside and mixing little water but no fertilizer or manure, and kept it in a shed to dry for 24 hours. Then it is stored in a cool dry place.

This seed balls are cast in forest land in the valley or river side when the rainy season starts after. it is rained continuously for two to three days.

Keshav Srushti gives Training and provides healthy soil from Keshav Srushti to interested volunteers. The first program took place at the Jogeshawari Suraj Ba Vidya Mandir. Since then the program has been in full flow throughout Mumbai and Thane. Keshav shrushti has conducted ten programs in last year where more than 1400 volunteers participated and more than 10,000 seed balls are made. These seed balls will be casted in this rainy season.

### ***Keshav Srushti Seed Ball Planting Program at Seven Square School***

### देश दिशाओ में जाए दल बादल से छा जाए

#### **PRSOA - PROFESSOR RAJENDRA SINGH OORJA ABHIYAN**

To inspire people to adopt sustainable energy practices that can lead to energy independence and save mother earth for present and future generations, Keshav Srushti has launched an ambitious program under the aegis of Professor Rajendra Singh Oorja Abhiyan.

Professor Rajendra Singh (29 January 1922 – 14 July 2003 ), popularly called Rajju Bhaiya, was the fourth Sarsanghchalak of the Rashtriya Swayamsevak Sangh (RSS). After majoring in physics he taught Spectroscopy at the Allahabad University for several years, where later he was appointed head of the Physics Department. Singh was also considered an expert in nuclear physics which was very rare those days in India. He was a firm believer in the concept of swadeshi and empowering rural economy. Initiating the rural developmental activities, he had declared in 1995 that the utmost priority should be given in making the villages hunger-free, disease-free and educative.

To achieve PRSOA's objectives Keshav shrushti has set up a team of experts to harness renewable sources at its command like sunlight, water, wind and biomass to generate energy for its various activities. To move the knowledge gained in laboratories to the field for common citizens Keshav shrushti has set aside land to Set up a Knowledge Centre in the campus. This would disseminate latest knowledge and information about alternative sources and methodologies of harnessing them. Emphasis will also be laid on publishing new and popular literature in this subject. We are working on alternative energy education by organizing lectures and seminars in educational institutions to educate students and also on designing courses to encourage people to take up green careers.

Keshav shrushti also organizes 'Energy Yatras' for people to remote places where successful projects have been set up to provide alternate energy to people as a practical demonstration.

### **WASTE MANAGEMENT**

Disposal of waste is a big problem for every developed and developing city as well in villages. As per WHO Mumbai is the 5th most polluted mega city of the world. Mumbai, Thane and Navi Mumbai has the a population of 1.75 crore and together they produce more than 11000 tons of mixed waste daily. There are total of 6/7 landfills in all three cities and all are overflowing. Government and corporation alone can't manage this problem without public awareness and active participation.

Keshav shrushti under the 'My green society' project works for waste management and to give a practical demonstration with information about waste management and composting, Keshav shrushti has built a pavilion in its campus.

Segregation of waste is the first and important part of waste management. Study has found that in the daily waste of residential complex mostly 60% waste is of wet / organic waste that can be composted. 20% is dry recyclable waste that can be given or sold to scrap dealers, 10% is of electronic waste and only 10% is for the landfill that can be collected by municipal corporations.

Apart from educating people about waste management Keshav shrushti also provides technical knowhow and suitable composter to wherever it is required. Under the 'Ashirwad Khad prakalp' Keshav shrushti has provided composter to more than 50 temples to compost the stale flowers (nirmalya). In this 23 from Mumbai, 12 aurangabad, 6 Bhayander, 4 Thane, 2 Kashi and 1 each from Nashik, Igatpuri & Vapi are included. We are happy to mention that Indian Railway's company 'IRCON' has helped us in funding this project from their CSR fund.

## KSGVY Annual Report 2018-19

### जल ही जीवन

## **WATERSHED PROJECT MANAGEMENT**

Wada, Vikramgad, Jawhar and Mokhada Talukas of Palghar district are known as 'Jungle Patta' which has severe water scarcity problems mentioned as under:

- Drinking Water
- Agricultural and Irrigation water
- Sanitation and Cattle-field water

**Dr. Umesh Mundlye, M.Sc. Ph.D.**  
(Environment), Water Expert and  
KSGVY Jal Samiti Member

Under the guidance of renowned water expert and Scholar Dr Umesh Mundlye KSGVY is currently implementing following water conservation and watershed projects

- Making of sub-surface bunds
- Making, repairing and De-silting of check dams
- Making of new well and repairing of existing wells
- Bore well Recharging through Rainwater Harvesting
- Agricultural Water for Groups farmers
- RO Plant ( Swatcha Pani Yojana )

#### **Important differentiation in Modus Operandi of KSGVY for sustainability**

- Independent and village specific water Solutions
- Socio-economical village survey
- Comprehensive Techno-Commercial water feasibility reports
- Local Panchayat and Gram villager Cooperation like Shramadan
- Training & Development to KSGVY and Villagers team
- Execution, Monitoring & SCM support by villagers and KSGVY Gram Samiti.
- Independent Bi-yearly Water projects Impact and Sustainability Audit report

#### **RO Plant Installtion ( Swatcha Pani Yojana)**

In collaboration with Mafatlal Group, KSGVY has successfully supplied clean drinking water to the following villages and schools, which are deprived of clean and chemical free drinking water

- Dengachimet, Jawhar
- Swami college, Wada
- PJ High School, Wada
- Manda, Wada
- Bhopvali, Wada

About 1800 Villagers and 6300 students are benefitted under Swatcha Pani Yojana

#### **Specific Impact of water shed project Management**

##### **1. Mhadachapada , Jawhar – Making of New well**

- This hamlet is a good example of village specific water survey and now has transformed into water surplus pada for drinking and agricultural Water. Villagers could get stock of 2 Lacks liters water immediately after building the well in summer season its self.
- 400 villagers have ample water for drinking at their doorsteps through Nal-Pani Yojana
- All around in 100 acres of agricultural land, farmers started cultivating "Mogra" flower as second crops generating an additional income for 10 Lacks per acre.
- This village has increased the area of land under cultivation upto 100 acres, thus generating 10 crore of income in totality for all local farmers.

##### **Overall impact of watershed project management**

- The total water recharging potential of year 2017-18 is 336 Million Litres and Harvestable water potential is 180 Million Litres.
- The total water recharging potential and harvestable water potential are likely to be double in about 7 Villages in 2018-19.
- These projects also helped villagers to generate income from second or third crops in a year. It also addresses environmental challenges like soil conservation, migration and women empowerment etc.
- We plan to resolve drinking water issue of 42 adopted villages by 2019-20 and of 75 adopted Village of 4 talukas in coming next 3 years i.e. 2022.

## KSGVY Annual Report 2018-19

### LIST OF WATER PROJECTS - 2017 TO 2020

#### Year 2017-18

Sr No	Village	Projects	Number of Villages People
1	Gale, Wada	water pipeline with 4 stand-posts	250
2	Dapati, Jawhar	Sub-Surface Bunds	500
3	Sasane, Wada	Borewell recharging	250
4	Kambhare, Wada	Sub-Surface Bund & Borewell recharging	500
5	Mhadachapada, Jawhar	Making of well	200+ 50 Htrs. Agri. Land
6	Palsai, Wada	Borewell recharging	125
7	Devgaon, Wada	De-silting of Bund	200
8	Ghayapatpada, Jawhar	Solar Nal-Pani Yojna	250
9	Dongaripada, Wada	Solar Nal-Pani Yojna	250

#### Year 2018-19

Sr No	Village	Projects	Beneficiaries
10	Swami College, Wada	Sub-Surface Bund on Downstream of well	5000
11	Dengachi Met, Jawhar	Sub-Surface Bund	1200
12	Nangarmoda, Jawhar	Sub-Surface Bund on Downstream of Well	1200
13	Biraripada, Khuded	New Well Construction	750
14	Kumbharkhand, Jawhar	New Well Construction and Sub Surface Bund	250
15	BhurkudPada, Tetwali,	Sub-Surface Bund + Bore well Recharge	400
16	DengachiMet	RO Plants ( Swatcha Pani)	1800
17	Patil Pada, Sakhare	Subsurface Bond	350
18	Vad pada, Tetawali	Subsurface Bond	450

#### Year 2019-20 (ongoing)

Sr No	Village	Projects	Beneficiaries
19	Swami College	Rebuilding of Well	5000
20	Budharpada, Manivli	Sub-Surface Bund	200
21	Dighe Pada, Dahe	New Well Construction and Bore well Recharge	200
22	Gavli Pada, Dahe	Sub-Surface Bund	200
23	4 Schools	RO Plants ( Swatcha Pani)	6300

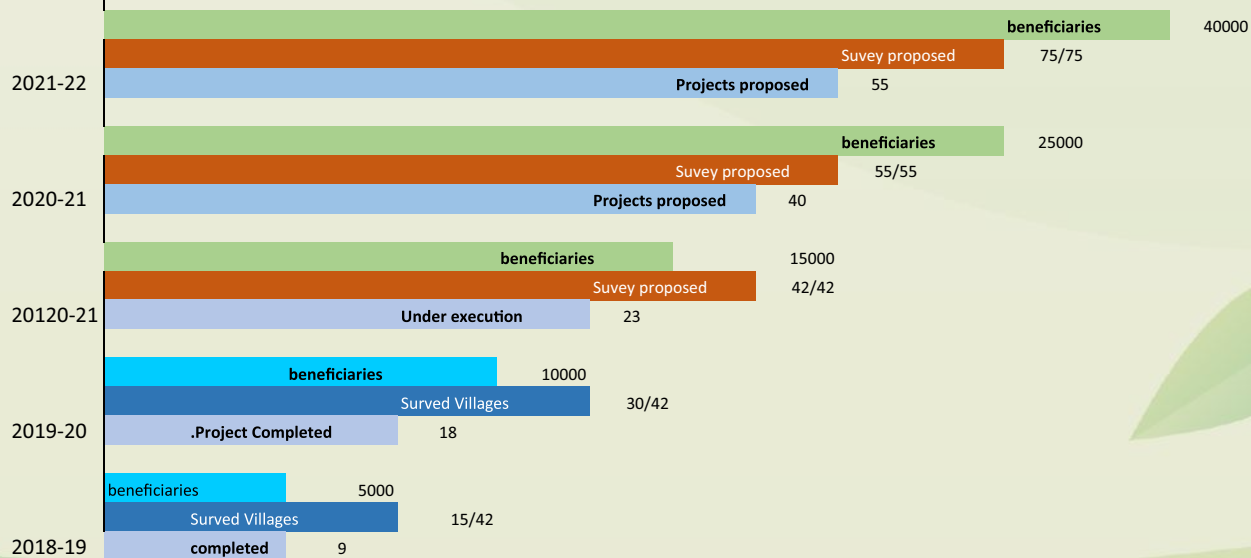

## KSGVY Annual Report 2018-19

### COMPLETED WATERSHED PROJECTS

Last 2 Years, Current and proposed water projection and number of beneficiaries (cumulative) are shown in following graph.

#### Water shed Projects of last 2 years and next 3 years till 2022

#### Watershed Projects ( Cumulative)

## KSGVY Annual Report 2018-19

उमड घुमड कर हर धरती पर नंदनवन सा लेहरए

### **AGRICULTURE & ENVIRONMENT**

People's life is completely dependent on agriculture in Palghar district. It is our prime imperative to incorporate agriculture as the important aspect of development. Adequate rain fall and abundance of land makes monsoon farming sustainable. The farmer in this area is yet deprived of the modern farming techniques. To educate the farmers with modern developments in the field of value added organic farming is the the goal for KSGVY. Krishi Samiti, A team of 13 members, meets once every month to formulate the development projects and makes plans for the implementation of the same.

#### **Krishi Samiti Key Members**

Dr. Suhas Ajgaonkar – Expert in the field of agriculture the veteran doctor has worked in Marathwada for more than 10 years for the development of value added organic farming.

Dr. Anagha Mandavkar – Principal, Krishi Tantra Niketan at Keshav Srushti Bhayander. More than 100 young students from Palghar District have successfully completed diploma from Krishi Tantra Niketan.

Shri Jayavant Wadekar (Dada) – Ex RSS Palghar Jila Sangha Chalak, owns a factory manufacturing innovative tools for farmers facilitating their work

Dr. Jagannath Save – Veteran Agriculturist, Teacher at Krishi Vigyan Kendra, Vastly experienced in the field

Shri Sadashiv Kulkarni – Engineer by profession he has intense liking for Agricultural Development

Village Youth Members – Shri Vinod Tare, Shri Rakesh Adhikari, Shri Raju Rikame

#### **• NURSERY**

- One nursery each has been developed in all 6 clusters.
- This has created opportunity for business and employment as well.
- The Nurseries will provide saplings to the farmers for tree plantation as well.

#### **• ORGANIC FERTILIZERS**

- Organic fertilisers such as S-9 Culture and earthworm culture have been developed in villages to help the villagers adopt the technique of organic farming

### AGRICULTURE & ENVIRONMENT

#### • LAKHPATI KISAN YOJANA WITH TATA TRUST

We have joined hands with Tata Trust to launch **LAKHPATI KISAN YOJANA** in selected 10 Villages.

KSGVY Team with 24 local farmers visited Dhadgaon, Nandurbar where Tata Trust has implemented Lakhpati Kisan Yojana since 2015. The team experienced the impact of modern techniques in agriculture and allied businesses such as Poultry and Goat rearing. The tour was an inspiration to all the farmers.

More than 150 farmers have participated in the programme which will start with the seed sowing this monsoon. Shri Satish Ekhande of Tata Trust, Lakhpati Kisan Yojana trained all the farmers and Krishi Team of KSGVY at Wada. Two days comprehensive training programme included the modern techniques of farming and package of practice.

#### List of Villages and Number of Farmers

Sr No	VillageName	Number of Farmers	Sr No	Village Name	Number of Farmers
1	Tilase	10	7	Budharpada	10
2	Kapri	10	8	Vadpada	10
3	Gale	10	9	Madacha Pada	10
4	Murbicha Pada	10	10	Dengachi Met	12
5	Dongri Pada	12	11	Vijay Nagar	10
6	Bochalpada	10			

#### • Tree Plantation

- Keshav Srushti has got wonderful response for tree plantation programme from villagers and urban yuva, with their families and friends.
- With the help of villagers and village committees KSGVY is able to plant 1500 Trees in the year 2017, 15000 Trees in the year 2018.
- KSGVY has proposed 50000 Tree plantation this year on 30<sup>th</sup> June. This will not only benefit the environmental aspect but also will contribute in the income of the farmers. These trees will generate income to all the farmers within 3 to 5 years. This project takes care of Agriculture and Environment aspects simultaneously.
  - 50000 trees comprise
    - ✓ 15000 Bamboo saplings
    - ✓ Guava, Drum-Stick, Custard Apple, Papaya, Lemon and Avla saplings – 5000 each.

## ग्राम ग्राम उद्योग लगाये हस्त-कला को बढ़ाये हम

### **WOMEN EMPOWERMENT**

#### **Case Study Bamboo Handicraft**

Tetwali Village in Vikramgarh Taluka holds a population of 980 villagers and was hand-picked by KSGVY to create Bamboo Handicrafts. KSGVY always aimed to bring about a bright change in the lifestyle of the villagers and this was a promising initiative.

With extensive support from Pandurang Bhurkud, Sarpanch of Tetwali village, 26 ladies came forth to work and participate in this hope for a bright beginning.

KSGVY Yuva, Gaurav Shrivastav monitored the entire initiative and arranged a 3-month training programme for these ladies which helped them to enhance their skills. Bamboo and other required materials were bought to lead the turnaround.

This was followed by a study tour to Vivek Rashtra Seva Samiti, a Bamboo craft Centre in Bhaliwali so as to get a better understanding of the work process by the women.

The dedicated talent of these 26 ladies rose to the initiative in an impressive style where they learnt to make six innovate and fancy bamboo items. They are now selling quality products with fine furnishing at reasonable cost.

With the training programme by KSGVY and support at every step these 26 women created a SHG Self-Help Group named- Bamboo Hastakala Utpadak Mahila Gat (बांबू हस्तकला उत्पादक महिला गट) led by Namita Namdev Bhurkud. This made them both-economically independent and socially aware. They have their SHG registered and now have also opened a bank account and are selling directly now thus enriching the quality of their lives.

KSGVY is now aspiring to consider Tetwali Village as a Role Model for Vikramgarh Taluka which consists of 80 villages, to Inform, Inspire and Replicate.

#### **Impact -**

#### **SOCIAL TRANSFORMATION**

A Festival of Democracy, Lok Sabha Elections was held recently. In Palghar District, election was held on 29 April. In response to KSGVY appeal for cent percent voting, ladies of Tetwali Village stepped forward and raised awareness. Their robust dedication resulted in scaled numbers which were- 395 Gents & 409 Ladies out of 980 casted their vote. This was a remarkable achievement as this year's voting was 82% whereas it was not more than 50% until previous elections.

#### **VISION- MOTIVATION- TRAINING- CO-OPERATION ECONOMICAL & SOCIAL TRANSFORMATION OF WOMEN**

## KSGVY Annual Report 2018-19

हम होंगे कामयाब एक दिन, मन मे है विश्वास, पुरा है विश्वास

### Case Study (Cloth Bags)

#### Translating Potential into Performance

With very little or no infrastructure, it was the need of the hour to provide the villagers with many other employment opportunities. KSGVY with its vision to provide its best for the upliftment of the district did a survey and concluded that the women of the district should be made self-dependent.

#### Thanks to the Maharashtra Government for the Ban on Plastic Bags

With the ban on the plastic bags, the demand of the cloth bags had increased profusely. The idea was to spark critical thinking among villagers to combat environmental damage. They provided the villagers with the cloth bag making employment opportunity.

Keshav Srushti's Cloth Bag Making Centre was inaugurated in January, 2019. The KSGVY encouraged the women in Palghar District to come forth and get stitching training on machines.

To everyone's surprise 216 ladies stepped forth to take best advantage of this opportunity and registered themselves.

Initially a small order was undertaken and the dedication of the ladies was worth applauding.

#### Namumkin Ko Mumkin Karna

Kotak Mahindra Life Insurance Corporation ordered 35,000 printed cloth bags in the month of March, 2019. It was a privilege for the centre to bag such a big order.

142 ladies participated in this project and the key task was delivered in 22 days with the required fine quality, displaying an outstanding performance and hard work. They executed the task and alongside also fulfilled their household responsibilities.

Kishor Patel from Mumbai and Mitesh Patil

from Wada supervised the entire project and their extraordinary hard-work was witnessed throughout the execution of this project.

With great grasping power, the ladies' valuable dedication and their inner talent that came fore made the Impossible Possible!

The hard-work of the women was praiseworthy and to congratulate them and encourage them more, a get-together was organized where in the officials from Kotak Mahindra Life Insurance Corporation were invited along with 142 ladies.

KSGVY's Foundation that was laid to encourage the intellectual and moral growth among villagers was evidently seen when 142 ladies were invited and all 142 ladies showed up for the get together.

*Smt. Yasmin Shaikh gave a heart touching speech and mentioned that though she had acquired the stitching skill, she was struggling for one whole year but didn't get an opportunity to earn. It was with this KSGVY's opportunity that she could pay the School fees of her child and buy a year's grocery stock for her house; from her hard earned money.*

## KSGVY Annual Report 2018-19

शिक्षा क्या स्वर साध सकेगी यदि नैतिक आधार नहीं है

### VALUE BASED EDUCATION

While identifying challenges in the tribal villages of Palghar District KSGVY team recognized a dire need to provide value based education to kids and after having discussions with local volunteers Madhav Sanskar Kendra were started in 37 villages.

Local volunteers were selected from every village as MSK Teacher. They run MSK for six days a week for two hours a day. In order to train these teachers for conducting various activities, sessions, games, to inculcate values in kids KSGVY started conducting monthly training workshops for teachers under the guidance of Khelwadi expert Smt. Varshatai Parchure and the trainers of Seva Sahayog.

#### MSK – माधव संस्कार केंद्र

KSGVY has undertaken the responsibility of value based education for village children. In this field 37 Madhav Sanskar Kendras have been started in 37 villages wherein students are encouraged to learn through practical experience. Learning through games, storytelling, performing art like dance, singing, painting etc is practiced regularly. The effect of these MSKs is clearly seen in students with increase in the curiosity and liking for learning. Students who were reluctant to go to school have started enjoying school activities regularly. The parents of the children and the teachers of Zila Parishad Schools are happy with the start and regular conduction of MSKs.

#### Inter MSK Competition

Variety of competitions were held among Sanskar Kendras of Cluster Number 4 on 10<sup>th</sup> of March, 2019. Over 150 students from 8 Centers participated in this ceremony. Competitions such as running race, Kabaddi, Singing, Stage-Show etc. were organized. MSK teachers, ZP School Teachers, Guardians, and KS employees were present to cheer the participants. Prizes such as Trophies, Medals, and Photos of Chatrapati Shivaji, Savitribai Phule, and Maa Saraswati were given to winner individuals and teams. These competitions boosted the confidence of students and MSK Teachers as well.

### EDUCATION

#### Computer Training Center

The office of KSGVY has developed a computer training center. Students from nearby colleges and schools come to learn English and Marathi Typing here at the center. More than 200 students have gained certificates for the course after passing an online examination. MCITER – Master Counseling Information Technology Research. MCX has donated 10 new computers with UPS and a Scanner cum Printer. The new machines have made the operation easier and faster.

#### Extending support to ZP school children

An extensive survey was carried out to assess the requirement of School Uniforms, Clothes, School Kits, and Sports Kits. After the survey these items were distributed in local ZP Schools and Madhav Sanskar Kendras in collaboration with Seva Sahayog, Big Bazar, and Rotary Club.

Sr	Item Distributed	Number of Schools / MSKs		Quantity		Association
		2017	2018	2017	2018	
1	School Kit (Bag & Stationery)	46 Schools	54 Schools	4146	5022	KSGVY
2	Sports Kit	30 MSKs	-	30	-	Rotary Club, Mumbai
3	E Learning Kit	-	12 Schools	-	12	Seva Sahayog
4	Science Lab	-	7 Schools	-	7	Seva Sahayog
5	Garment	-	30 MSKs	-	2000	Big Bazar
6	School Uniform	-	24 Schools	-	4000	Swaragandha

KSGVY will be distributing 3000 School Kits this year as well at the start of the School on 20<sup>th</sup> June, 2019. The survey has been completed with the list of the schools finalized.

### नवीन पर्व के लिए नवीन ज्ञान चाहिए

## **SKILL DEVELOPMENT AND TRAINING FOR KARYAKARTA VIKAS**

### **1. Atal Incubation Center at RMP – 18th & 19 Dec. 2018**

#### **Training on 'Entrepreneurship Development'**

Shri Amit Tuteja conducted two days 'Entrepreneurship Development' training program for about 55 Urban and rural youth participants at RMP, Keshav Srushti. The trainer also imparted training on Entrepreneurial project management for various rural based businesses. pilot project models were presented by 6 groups after brainstorming.

### **2. Dialogue with NITI Ayog Vice Chairman, Shri Rajiv Kumar –**

19th Jan. 2019 About 60 team members participated in interactive session with Shri Rajiv Kumar, at RMP, on Jan 19, 2019.

After being briefed about KSGVY Activities and having discussion with KSGVY team. Shri Rajiv Kumar, Hon'ble Vice Chairman, Niti Aayog and Shri. Vinay Sashashrabudhhe, Hon'ble RS MP appreciated the unique model of KSGVY and its progress in a short duration. Later, they guided KSGVY team members on Gram Vikas in an interactive Q & A session followed by dinner with rural and urban youth.

### **3. Watershed Management Orientation Program for Villagers and Gram Samiti – 6th Jan. 2019**

Water experts Dr. Umesh Mundlye conducted an orientation for around 60 villagers and KSGVY gram Samiti members on fundamental of watershed management, & different types of watershed models, execution, maintenance aspects of project. He focused on Village or Spot Specific watershed solutions rather than standard replicable solutions. This orientations helped villages & KSGVY team in execution of watershed projects.

**4. Sanitary Pad Manufacturing –** KSGVY has imparted training provided Sanitary Pad manufacturing Equipment and material to Swayamsiddha Mahila Bachat Gat, Khupri. 10 women members SHG has started manufacturing 20000 sanitary pads per month from Jan 2019. The material used is 100% biodegradable, environment friendly without any chemical compound. Zilla Parishad, Palghar has introduced these pads to 300 SHGs in Wada Block.

## KSGVY Annual Report 2018-19

**निर्माणों के पावन युग में, हम चरित्र निर्माण न भूलें !**

### 5. Goat rearing & Poultry – 8th Feb. 2019

Dr. Santosh Shinde, Pashudhan Adhikari, ZP Nashik trained about 40 youth in goat rearing and poultry management for developing local entrepreneurs in this kind of profitable ancillary agro based udyog.

### 6. Farm House Management Training – 9th March to 10th April 2019

Shri Sarvesh Singh and Shri Rakesh Adhikari conducted a dedicated 2 days training program for aspiring youth for Farm Houses Management. The successful completion of the training enables youth to get jobs in nearby private farmhouses.

**7. Food Processing Training** – Dr. Huskute, an expert in food processing trained about 15 rural women for food processing products such as Mango Jam and Ragi Muthia.

### 8. Smart Gaon Program Launch – 7th April 2019

The “Smart Gaon Yojana” has been launched on 7 April 2019 at Wada Office. The founders of yojana, Shri Yogesh Sahu and Rajnish Bajpai. The founders demonstrated Smart Gaon Yojana in detailed to all karyakartas and announced the commencement of Smart Gaon yojana in 10 villages of Wada, Vikramgarh and Jawhar in presence respective village gram samiti and sarpanch. All villagers have decided to participate in program enthusiastically for successful implementation of Smart Gaon Yojana.

**9. Village Tourism Village** – tourism has been one of the major interest for KSGVY. A team of all vistaraks and Shri. Prakash Patil have been working on the project. This is one of the important steps taken in the field of business development for rural youth. Shri. Uday Wakawala, CEO, Atal Incubation Centre, RMP also visited the site of Dharpapada Villages, Jawhar for exploring future tourism opportunities.

अपनी मिट्टी अपना पानी अपना पवन प्रकाश हो

### STUDY TOURS

#### Baripada, Dhule

About 40 farmers from Palghar district visited Baripada, Dhule on 29-30 Dec. 2018 along with KSGVY core committee members and Vibhag Karyakartas. Baripada Village from Dhule District, Maharashtra has completely been transformed by the farmer Shri Chaitram Pawar and his team.

Shri Chaitram Pawar shared how 1100 acres spread of Green forest and agricultural land is transformed and helped each farmer of the Baripada in wealth and income generation. The water shed management of 45 wells, 13 spring lakes, 3 big lakes helped farmers to cultivate all seasonal crops, this has fruits and also facilitated them to generate employment by selling of forest medicine, vegetables, Bamboo plantation, Tourism and agricultural-based food process units.

#### Salient Futures of Baripada Village transformation are

- all the electrical appliances run on solar energy,
- women SHGs manage the tourism business,
- almost all youth & women participate in decision making & work in the fields
- village has a greater number of animals than human beings.

#### Impact of Baripada Study Tour

During the study tour, KSGVY team experienced the importance and integration of five fundamental elements of natural wealth **i.e.** जंगल , जल , जमीन , जनावर , जन . Team, also learned a comprehensive and practically implemented Gram Vikas Model.

## KSGVY Annual Report 2018-19

### शोषित पिडीत कृषक जनों का भाग्य बनाने निकले हम

#### DHADGAON, NANDURBAR

About 24 farmers and KSGVY 7 Karyakartes visited Dhadgaon, Nandurbar District, Maharashtra on 24 to 26 Apr 2019 to understand and to gain the practical experience of **Lakhpatri Kisan Yojana** for Farmers, which is being designed and executed by TATA Trust since 2015.

#### Salient Future of Dhadgaon

- modern farming techniques,
- management of village needs by female members of gram samiti
- proper maintenance of the animals
- state-of- art nurseries stat of the art

Later KSGVY team Visited Dr Hegdewar Seva samiti, Nandurbar and Agro-Product Marketing Centre of Govt. Of India and learnt innovative avenues like Organic Farming, Poultry management, Livestock Feed, 100 meter Cattle fields farming.... etc.

#### Impact of Study tour of Dhadgaon, Nandurbar

Initially the KSGVY Farmers were doubtful about on-the-ground implementation of Lakhpatri Kisan Yojana. However, after witnessing the real transformation of local farmers with their debt-free and liquor free life, they developed confidence in the project and decided to participate in Lackpati Kisan Yojana enthusiastically. They even contributed 20% of total scheme cost as their share to Tata Trust immediately. Till date, KSGVY has registered 130 farmers from 3 talukas of Palghar District under Lackpati Kisan Yojana.

#### Tuljapur Visit

KSGVY team visited Tuljapur to experience the concept of **zero budget natural farming**, the concept developed by Padmashri Award Winner Shri Subhash Palekar.

The effects of Palekarji's technique wear seen on the crops cultivation on a large scale. KSGVY Krishi Samiti is planning to implement these techniques in Lakhpatri Kisan Yojana simultaneously for better yield.

चलो जलाये दीप वहाँ जहाँ अभी भी अंधेरा है

## **ALTERNATE ENERGY**

### **Energy access for remote communities**

In 2017-2018, Keshav Srushti Gram Vikas Yojana had installed drinking water systems using solar pumps for two villages – Ghaypatpada and Dongripada. The key element here is the local involvement of the communities and the long term sustainability which was achieved by forming a village committee and a collection mechanism that can help the village take care of long term maintenance issues.

In the current year, Keshav Srushti Gram Vikas Yojana went a step ahead and decided to install micro-grids in some villages. In the Tansa area, there are several small hamlets where electricity has not yet reached and these communities are deprived of basic comforts that most people take for granted.

With financial support from Tata Cleantech Capital Limited and Tata Housing Finance Limited, and a technical collaboration with Gram Oorja Solutions Private Limited, the following villages were chosen to be electrified.

#### **1. Borale – 135 households and 1 school**

2. Pendhari – 39 households and 1 school
3. Kombpada – 17 households
4. Bhangrepada – 15 households
5. Chakkipada – 18 households and 1 school
6. Kuwaripada – 18 households
7. Kaluamba

Barring Kuwaripada and Kaluamba, where some paperwork and permissions are still pending, the other villages have been electrified. A village energy committee has been set up in each of the villages and the villagers have paid an initial contribution, apart from contributing labour to the project. The VEC has agreed to a tariff and will start collecting this from the consumers. This will take care of long-term maintenance and battery replacement issues.

A total of 48 kWp has been installed and the micro-grids provide enough capacity to run some productive appliances like pumps and flour mills in each village. Some of these projects were visited by researchers from India and overseas during the implementation and after.

## KSGVY Annual Report 2018-19

देश हमें देता है सब कुछ, हम भी तो कुछ देना सीखें ॥

### **URC - URBAN RURAL CONNECT**

#### **Concept**

One Urban Yuva adopts one village who works closely with one Gram Yuva for the improvement of villages along with respective gram samiti.

First Sunday of every month there is brainstorming cluster meeting to discuss the operations, activities and future plans where the Gram and Urban Yuvas meet and discuss their ideas with Gram Samiti. Further, they also mutually decide to meet one more day in the same month for follow up of the same.

#### **Urban Yuva Team**

Recently Urban Yuvas have stepped up their activities brilliantly giving their superlative performance. The Urban Yuva team from Mumbai is lead by Vikas Banka and Nishi Singla.

Following are the Urban yuva team members with their respective responsibilities.

- Shri. Ravindra Mane & Shri Vinod Patel (Water)
- Shri Krishna Gopal Mantri (Sanitary Pad)
- Shri Prakash Patil (Village Tourism)
- Shri Mukesh Padhya (Food Processing)
- Shri Kishor Patel and Shri Shrikant Kejriwal (Cloth Bag)
- Shri Gaurav Shrivastav (Bamboo Craft)
- Shri Sarvesh Singh (Farmhouse Management)
- Shri Sarang Vaidya (Agriculture)
- Shri Bharat Sharma (Vanasampada - Collection from the Forest)

#### **Reaping Benefits of Enthusiastic Youth – Gram Yuva and Urban Yuva**

The Urban Yuvas are very positive in their approach and are making contributions in a big way. They lead upon the path of duty, virtue and commitment for a better tomorrow and are self-motivated. They consider that their contributions will lead a huge rural social transformation.

They hold a sense of compassion and empathy considering the problems of the villages as their own, which has made a huge difference.

- Urban Yuva provides the required resources from the urban areas to villages giving momentum to the development vision of the Yojana.
- Gram Yuvas have good grasping skills and are educated. Urban Yuva accelerates this transformation by broadening their horizons in terms of thinking and introducing newer concepts
- Urban Yuva is also expected to inspire other youngsters in the city, to help spread the word of the problems reigning in these villages. They are expected to get more and more yuvas in this initiative to bring about the change.
- Urban yuvas shall emphasis on generating more opportunities for Udyog and focus on value based Education.
- The Urban Yuva is expected to connect One School, one College, One Society, one Institution and One Corporate with one village with the idea of expediting the process of development.

## KSGVY Annual Report 2018-19

### Cluster wise Urban Yuva Pramukh

- Vibhag 1 – Omkar Sathe
- Vibhag 2 – Mayank Singhanian
- Vibhag 3 – Abhishek Dave
- Vibhag 4 – Neelkanthan Aiyer
- Vibhag 5 – Animesh Kejriwal
- Vibhag 6 – Gautam Mukherjee

### Touching Lives, Making a Difference

KSGVY organizes three festivals every year. The core strength of these festivals is to connect the urban and rural culture where everyone feels the same level of energy and a sense of brotherhood.

#### 1. Tree plantation drive

#### 2. Diwali Celebrations

#### 3. Republic Day

#### Tree Plantation Drive – 8<sup>th</sup> July 2018

Urban Yuva along with their families and friends participated in the Tree Plantation drive. The urban youngsters were welcomed in a traditional way by the villagers.

It gave the Yuvas a sense of belonging. Villages, Gram and Urban Yuvas together planted trees. *One of the Urban Yuvas said "I felt a sense of fulfillment and am extremely elated of being a part of this great cause. It is such a honor to be welcomed so happily by the villagers"*

After plantation, Urban Yuva and families had lunch in villager's house along with rural yuva family.

## KSGVY Annual Report 2018-19

### Diwali Celebrations – 18<sup>th</sup> November, 2018 Diwali ka pehla Diya, Mere Gaon Me

A small good deed brings about a big change! Urban Yuva lit the first Diwali diya in the Village rather than in their own house. It's such a great gesture! The villagers welcomed the urban youth gracefully and together were seen exchanging gifts, sweets, and lighting diyas together.

Urban yuva gifted the villagers a set of musical instruments required for Bhajan and social get-together. This consists of – Harmonium, Manjira, Taal, Dholak. They later did their diwali pooja and together participated in a Bhajan programme.

Villagers were very happy and appreciated these gestures.

### Republic Day

The importance of Democracy, Freedom & Brotherhood is shared on this occasion by the volunteers. Bharat Mata Photo-frame was given to all the villages for **Bharat-Mata Pujan**. Every village offered prayers to Bharat Mata. *Every year, such events mark as an inspiration and acts as a catalyst for the Development of the villages.*

## लिये प्रखर संकल्प हृदय में, आगे बढ़ते जायेंगे

### MISSION 2022

When India celebrates the 75th anniversary of Independence in 2022, KSGVY plans to set its course of actions under KSGVY Programme Mission- 2022

#### **Journey from Chintan Bhithak to Mission 2022**

As a part of culture, KSGVY team meets for a Chintan Bhaithak (brain storming) every 6 months for introspection, analyzing the performance of core initiatives, Karyakarta Vikas and to decide on future course of actions.

Till last chintan bhaithak, KSGVY used to plan for next one year. From March 2019 chintan bhaithak, it was decided to create a vision plan for next three years and then prepare action plan for every 6 months. The discussion during this meeting set the tone for agenda of mission 2022.

#### **1. Adoption of 75 villages for Gram Vikas**

The preliminary survey of Mokhada by KSGVY team shows that Mokhada is under developed tribal area and its tribal are still deprive of fundamental needs like water, education, energy food etc. Hence KSGVY decided to adopt few new villages from Mokhada, leading to adoption of total 75 Villages under Mission 2022.

#### **2. One Adarsh Gram in each Vibhag**

KSGVY will develop one Adarsh Gram in each vibhag by 2022.

#### **3. 75 new Udyog Units**

Presently, KSGVY has 7 fully independent Micro-Udyog Units and Manufacturing Units :

1. Cloth Bags
  2. Sanitary Pads
  3. Bamboo Handicrafts
  4. Nursery
  5. Food Processing unit
  6. Tourism services
  7. Forest Herbal medicine for healthcare (Vansampada)
- Parallelly, KSGVY Udyog Committee is exploring a few innovative opportunities so that 75 Independent Udyog models can be established in all 75 adopted

Villages by 2022.

#### **4. Setting up of IT Park**

Knowing the skillset, highly potential and educated young generation of these regions, KSGVY research team will approach Govt. Of Maharashtra (under State of Maharashtra- Industrial development Policy) for setting up an IT Park for Rural BPOs. These Rural BPOs will have advantages due to low cost arbitration of the region. Setting up of IT park will open numerous employment opportunities for the local youth.

#### **5. Urban Yuva Connect with all the 75 Villages**

All adopted 75 villages will be connected to Urban Yuva this team will later evolve Urban Rural Connect program further so that each village can be connected to Urban Societies, Colleges Schools and Corporates.

#### **6. Udyog for Differently Abled Adults**

KSGVY Udyog team is planning to set up an independent Udyog unit at Jawhar for employment of differently abled adults (divyang), who are mostly left in the dark after their education. Secondly, this Udyog unit will also act as Skill Development Center for differently abled students.

#### **7. Implementation of 5 Govt Schemes each year**

KSGVY will focus on 5 new government schemes each year. This focused activity will help us take the schemes to the right beneficiaries effectively. Thus, KSGVY plans to implement 15 existing Govt schemes by 2022. this year, we will help in implementing following govt. schemes:

- Aayushman Bharat
- MSEB Solar Pump Yojana
- Goat rearing & Poultry
- Aadhar card rectification
- Atal Pension scheme

## KSGVY Annual Report 2018-19

### **GOVERNMENT SCHEME**

Government launches a number of schemes for the benefit of villages. These schemes do not actually reach up to the villagers. The reason being inefficient implementation and ignorance at the village level. Both these problems are being tackled by KSGVY, acting as facilitator between Government and Villagers. KSGVY CEO, Shri Santosh Gaikwad and local Team have built a very good relationship with Shri Borikar, CEO Of Palghar District and other Govt officials from various department, who helps in implementation of various Governments Schemes throughout Palghar District.

**1. Dialogue Palghar -** KSGVY participated in Dialogue Palghar twice this year a conclave organized by Palghar District Administration with the NGOs and CSR companies operating in this area. The main aim of this dialogue was to provide in-depth knowledge of the Govt. Schemes to the NGOs so that all can cooperate for the implementation of the same. During the meeting KSGVY CEO Santosh Gaikwad introduced KSGVY to Mrs Fadanvis, Wife of Chief Minister, Ms. Priya Khan, OSD to Chief Minister, Maharashtra, Palghar CEO and District Collector Shri Narnaware.

**2. Joint Meeting of KSGVY and Palghar District Zilla Parishad -** In a joint meeting on 28th Oct 2018, about 60 KSGVY core committee, vibhag team members and local gram samiti members had a Training and Interactive Session with Heads of Govt Dept. in understanding the various Central and State govt. schemes. During Meeting Shri Milind Thatte, Convener of Vayam Foundation presented elaborately on **“PESA Act 1996” (Panchayat Extension to Scheduled Areas)**. In an Q & A session with villagers, the concerned officials clarified on govt. schemes like water projects, skill developments etc.

**3. KSGVY water committee Meet with CEO of Palghar -** KSGVY water committee members and Core committee members met Shri Borikar, CEO Of Palghar District and Water Dept. Govt officials on Feb'2019 to understand various Water Dept Govt schemes. In collaboration with district administration, KSGVY is decided to resolve water scarcity issue of severely drought affected villages of 4 talukas.

#### **4. Implementation of 5 Govt Schemes each year**

Under Mission 2022 Program, KSGVY will focus on 5 government schemes implementation every year in collaboration with District administration. The focused activities will help to reach the schemes to the right beneficiaries effectively. In year 2019-20, we will help in implementing following schemes:

- Aayushman Bharat
- Goat rearing & Poultry
- Atal Pension scheme
- MSEB Solar Pump Yojana
- Aadhar card rectification

## KSGVY Annual Report 2018-19

“The village is the cell of the national body and the cell life must be healthy and developed for the national body to be healthy and developed.”  
Maharshi Yogi Shri Arabindo.

“Much of India that we dream of still lies ahead of us: housing, power, water and sanitation for all; bank accounts and insurance for every citizen; connected and prosperous villages.”

Mananiya Pradhan Mantri  
Shri Narendra Modi.
